Marco, You're IN!

Hi Marco,

On behalf of the hackaTUM Organization Team, we are beyond excited to share that you have been accepted to participate in hackaTUM 2026! Congratulations! 🎉

Making this year's application decisions was not an easy task for us. We received a record high number of applications and almost all were SUPER AWESOME. Kudos to you all! In the end, we could only accept roughly 40% of applicants. But not to worry, you were one of them – therefore, a huge congrats to you!!💙

Before you scream from the rooftops announcing this big achievement, we would like to bring your attention to a few important items to prepare for the incredible weekend ahead (as in basically three weeks from now!!):

1. We might have lied a tad. Although you have been initially accepted to hackaTUM 2026, your spot is not *completely* confirmed yet! In order to let us know you are coming and to secure your spot, we ask that you take care of the following as soon as possible:

   SIGN THE TERMS AND WAIVER AGREEMENT 🖊️
   To streamline the registration and check-in process, we will be asking you to complete an online terms and waiver agreement. Important: **signing this agreement online is necessary to participate in the event** (i.e., to secure your spot). **The deadline to do so is Monday, November 9, end of day**.

   A unique signing link will be sent to you soon after this email. Please complete this task! No account necessary, just follow the link and instructions :)

2. **Stay tuned**. 📺 In addition to the above, here's a couple things you can expect next:

   Eventbrite. After the November 9 deadline, you will be automatically registered for the event via Eventbrite (assuming you signed the agreement). Look out for an email – this is your ticket in! 🎟️

   Follow-up. Expect a follow-up email from us after the Eventbrite registration, outlining further details for the event, including a Discord link where you can chat with us and other participants! 💬

   The Event! Most importantly, make sure you can make it on Friday, November 27 from 15:00 to 17:00 for registration. Sponsor booths open at 15:00 and the opening ceremony starts at 17:00! ⏰

   A Note. One more thing: we would just like to remind you that hackaTUM is an in-person event. In order to register a team and submit in the end, you must have checked-in at the event. Trust us, it's more fun this way! ✅

   An Ask. In case you already know you won't make it, please let us know (hackatum.in@tum.de)! There are literally a thousand other potential candidates waiting for a chance to join.

3. **Now celebrate**! 🎊 You are *this* close to participating in one of the biggest, baddest, and boldest hackathons in all of this great continent we call Europe. Therefore: get pumped and get prepared for a heck of a weekend. Much fun to come. 👩🏽‍💻👫

Once again, congrats! We are so excited to welcome you to the event, especially for this special tenth edition :)
Let's do this, y'all.

Best regards,
The hackaTUM Team

P.S. So glad to have you on board!
